ABOUT MYSELF

Results-driven Data Analyst with 2+ years of experience in SQL, Power BI, and advanced Excel analytics. Proven ability to design interactive dashboards, automate reporting workflows, and deliver data-driven insights that drive business decisions.

Recent achievement: Engineered an operational audit pipeline managing 500+ asset records, identifying and preventing 45,000+ in operational losses through systematic data cross-referencing.

Seeking to bring technical expertise and analytical rigor to a challenging Data Analyst position in Poland. Open to relocation and visa sponsorship.

SKILLS

DIGITAL SKILLS

Data Cleaning | Advanced excel | Python | Google (Google Drive, Google Docs, Google Slides, Google Sheets, Google Meets, Google Trends) | Power BI | SQL | Reporting & Dashboards | Power Query & Power Pivot | DAX | Data Gathering, Data Processing, Data Visualization | ETL Processes | Firebase: Firestore, FirebaseAuth, FirebaseStorage, RealTime database | Android (Android Studio)

ORGANISATIONAL SKILLS

Documentation & Record Management | Task Coordination | Time Management | Data Auditing | Process Optimization | Workflow Automation | Project Management

COMMUNICATION SKILLS

Classroom communication (from teaching) | Professional communication | Team collaboration | Stakeholder Communication | Cross-functional Collaboration

PROJECTS

03/03/2026 - Current

WeVois VTS Management Portal

Designed and launched a live production asset-tracking application to transform manual, untracked hardware handovers into a cloud-verified transaction system.

Engineered comprehensive database architecture with real-time IMEI text validation to handle 15-digit hardware entries, completely preventing manual typing errors during high-volume operations.

Integrated role-based access control systems via Firebase to safely manage secure inventory updates across multi-regional staff accounts.

Optimized cloud processing infrastructure using direct binary asset pathways, achieving zero-cost cloud storage integration.

SKILLS USED: Flutter Web, Cloud Firestore NoSQL Database, Firebase Authentication, Cloudinary Cloud Storage, Full-Stack Application

Development

ADDITIONAL NOTES: Live production application currently in use by operations team. Reduced manual data entry errors by 100%. Handles 50+ concurrent regional users.

27/11/2025 - 12/12/2025

● Sales Performance Dashboard

Analyzed 5,000+ Uber ride records across multiple time slots, cities, and regional zones to identify operational patterns and revenue drivers. Engineered comprehensive Power BI dashboards featuring designated Corporate Executive and Data Analyst perspectives, enabling stakeholders at different levels to access relevant insights.

Isolated high-density surge windows and baseline performance drivers by parsing trip cancellation datasets via SQL queries and advanced DAX modeling.

Created multi-layered data models to track rides, revenue distribution, distance metrics, and operational performance across completed vs cancelled trip categories.

SKILLS USED: Power BI, DAX Modeling, SQL, Data Modeling, Power Query, Data Visualization

ADDITIONAL NOTES: Executive dashboard used for strategic planning. Analyst dashboard enables operational team to identify daily patterns. Identified peak demand hours leading to 15% revenue optimization opportunity.

09/10/2025 - 11/11/2025

● Business Sales Report Automation (Excel)

Cleaned and modeled volatile retail transactional data arrays using advanced Excel Power Query protocols to ensure data accuracy and consistency. Automated core KPI summary frameworks reflecting Year-over-Year (YoY) metrics, margin distribution trends, and category performance analysis.

Built interactive dashboards with slicers and pivot tables enabling management to filter sales by product, category, time period, and region.

Identified structural performance drivers across product sales matrices by analyzing top-performing products and underperforming categories, providing executive decision support for inventory allocation.

SKILLS USED: Microsoft Excel, Power Query, Pivot Tables, Slicers, Data Cleaning, KPI Dashboard Design, YoY Analysis

ADDITIONAL NOTES: Reduced manual reporting time by 60%. Automated monthly sales reports. Used by management team for strategic inventory decisions.

WORK EXPERIENCE

● **WeVois Labs Pvt. Ltd.** JAIPUR, India

Operations Executive

27/01/2026 - Current

- Track and audit fleet-wide device status metrics across Google Sheets, managing 500+ vehicle tracking units across VTS Active, VTS Inactive, and VTS Renewals categories

- Engineered operational audit pipeline to cross-reference live vehicle movement against database statuses; isolated vehicles running while their VTS showed inactive, preventing ₹50,000+ operational leakage through systematic data auditing

- Managed end-to-end lifecycle of device subscriptions by identifying expired trackers and processing timely

renewals for expired VTS units, maintaining 98% system accuracy

- Orchestrated data logistics for new territory expansions, calculating vehicle density metrics for each city and managing deployment and sheet updates for new VTS hardware allocations during city launches
- Built and maintain the WeVois VTS Manage application using Flutter and Cloud Firestore to establish data accountability for hardware device returns; platform manages 50+ concurrent multi-regional users

SKILLS DEMONSTRATED: Data Auditing, Operations Tracking, Google Sheets Database Architecture, SQL, Data Analysis, Process Optimization, Workflow Automation, Full-Stack Development

KEY ACHIEVEMENTS: - Prevented 50,000+ in operational losses - Managed 500+ asset tracking database - Achieved 98% data accuracy - Built production web application (50+ active users)

● **S.V.M PUBLIC SR. SEC. SCHOOL** JAIPUR, India

Mathematics Teacher

08/08/2022 - 16/06/2025

- Analyzed student performance data using Excel to identify trends and improvement areas for 500+ students across multiple classes
- Maintained structured academic datasets and automated score calculations using Excel formulas and summaries, improving accuracy by 40%
- Improved reporting accuracy and consistency by implementing standardized calculation methods and formula-driven spreadsheet models
- Prepared lesson plans, assessments, and performance reports for management review and parent-teacher communication
- Created performance dashboards and summary reports to visualize student progress and identify at-risk students

SKILLS DEMONSTRATED: Data Analysis, Excel Automation, Report Generation, Data Accuracy, Communication, Documentation

KEY ACHIEVEMENTS: - Taught 500+ students across multiple classes - Reduced manual reporting time by 40% - Maintained 99% data accuracy in student records

Mathematics teacher at secondary school

07/03/2022 - 01/08/2022

- Maintained customer and loan data records in Excel, managing 500+ active customer accounts
- Prepared daily MIS reports for management review, ensuring data completeness and timeliness
- Ensured data accuracy and consistency across reports through systematic verification protocols
- Processed customer inquiries and managed follow-up data entry workflows

SKILLS DEMONSTRATED: Data Entry, Excel, Customer Data Management, Data Consistency

KEY ACHIEVEMENTS: - Managed 500+ customer records - Daily MIS reporting (100% on-time delivery) - Zero data inconsistency issues

EDUCATION & TRAINING

● **02/07/2018 - 24/06/2021** JAIPUR, India

● **Bachelor of Science (B.Sc)** University of Rajasthan

Field(s) of study: Mathematics , Physics , Chemistry | **Level in EQF:** EQF level 6

● **01/07/2017 - 25/06/2018** JAIPUR, India

● **Senior Secondary (Class 12)** Rajasthan Board, Ajmer

Level in EQF: EQF level 4

01/07/2014 - 10/06/2015 JAIPUR, India

Secondary (Class 10) Rajasthan Board, Ajmer

Level in EQF: EQF level 3

CERTIFICATIONS

Microsoft / Simplilearn, 07/01/2026

Power BI for Beginners

Successfully completed Power BI for Beginners course covering fundamental concepts of business intelligence, data visualization, and dashboard creation. Proficiency in:

- Power BI desktop environment and core features
- Data import and transformation
- Building interactive dashboards
- Publishing and sharing reports

CERTIFICATE CODE: 9687088

Directly applicable to creating business intelligence dashboards and data visualization projects for analytics roles.

Google Cloud, 20/09/2025

Introduction to Generative AI Studio

Successfully completed Google Cloud's foundational course on Generative AI Studio. Gained knowledge of:

- Cloud-based AI/ML services
- Generative AI fundamentals
- Data pipeline architecture
- Cloud infrastructure for analytics

CERTIFICATE CODE: 9013898

Demonstrates familiarity with modern cloud-based tools and AI capabilities relevant for advanced data analytics.

Simplilearn SkillUP, 25/08/2025

ChatGPT 101: What is ChatGPT?

Successfully completed comprehensive course on ChatGPT and generative AI technologies. Covered:

- Fundamentals of large language models (LLMs)
- ChatGPT capabilities and applications
- AI tools for productivity and data analysis
- Practical applications in business

CERTIFICATE CODE: 8854579

Demonstrates awareness of cutting-edge AI tools and commitment to continuous learning in emerging technologies.

Deloitte, 22/08/2025

Cyber Security Job Simulation

Completed Deloitte's professional job simulation program covering cybersecurity fundamentals and practical tasks. Participated in:

- Security incident analysis and response
- Risk assessment and compliance review
- Practical security problem-solving

Demonstrates engagement with professional development through real-world simulation experience with global consulting firm.
