Profile

Results-driven Operations & Data Analyst with hands-on experience in **SQL, Power BI, Advanced Excel**, and custom data-tracking workflows. Proven track record at **WeVois Labs** of managing complex **Google Sheets database** architectures, executing hardware subscription lifecycles, and cross-referencing datasets to isolate operational leakage. Highly skilled at **automating core KPI dashboards**, managing data pipelines during regional expansion launches, and converting raw tracking metrics into actionable business intelligence, seeking a challenging **Data Analyst or MIS Specialist role**.

Professional Experience

- | | |
|---|--|
| Operations Executive, WeVois Labs Pvt. Ltd. | 01/2026 – Present
Jaipur, Rajasthan |
| <ul style="list-style-type: none">Track and audit fleet-wide device status metrics across Google Sheets, categorizing trackers into VTS Active, VTS Inactive, and VTS Renewals.Engineered an operational audit pipeline to cross-reference live vehicle movement against database statuses; isolated vehicles that were running while their VTS showed inactive, stopping data leakage.Managed the end-to-end lifecycle of device subscriptions by identifying expired trackers and processing timely renewals for expired VTS units.Orchestrated data logistics for new territory expansions, calculating vehicle density for each city and managing the deployment and sheet updates for new VTS hardware allocations during new city launches.Built and maintain the WeVois VTS Manage application using Flutter and Cloud Firestore to establish data accountability for hardware device returns. | |
| Mathematics Teacher, S.V.M Public Sr. Sec. School | 08/2022 – 07/2025
JAIPUR,INDIA |
| <ul style="list-style-type: none">Analyzed student performance data using Excel to identify trends and improvement areasMaintained structured datasets and automated score calculationsImproved reporting accuracy and consistency using Excel formulas and summaries | |
| Telecalling Executive, Kogta Finance (I) Ltd | 03/2022 – 08/2022
JAIPUR,INDIA |
| <ul style="list-style-type: none">Maintained customer and loan data records in ExcelPrepared daily MIS reports for management reviewEnsured data accuracy and consistency across reports | |

Education

- | | |
|--|-------------|
| Bachelor of Science (B.Sc), University of Rajasthan | 2018 – 2021 |
| Senior Secondary, Rajasthan Board, Ajmer | 2017 – 2018 |
| Secondary, Rajasthan Board, Ajmer | 2014 – 2015 |

Skills

Data Visualization & Analytics:

Power BI, DAX modeling, KPI Dashboards, Interactive Reporting, Excel Pivot Tables, Slicers.

Core Competencies

Data Auditing, Operations Tracking, Workflow Automation, Process Optimization, Technical Problem Solving.

Data Engineering & ETL

SQL (Joins, Window Functions, Aggregations, Data Extraction), Power Query, Google Sheets Data Architecture.

Application & NoSQL Development

Flutter Web, Cloud Firestore NoSQL Database Schema, Firebase Authentication.

Projects

WeVois VTS Management Portal,

03/2026 – Present

Tools: Flutter Web, Cloud Firestore, Firebase Auth <https://wevoisvtsmanage.web.app/>

- Designed and launched a **live production portal** to transition manual, untracked hardware handovers into a **cloud-verified transaction system**.
- Implemented real-time text validation mechanisms to handle **15-digit VTS hardware IMEI entries**, completely preventing manual **typing errors** during high-volume operations.
- **Configured role-based access** control systems via Firebase to safely manage secure inventory updates across multi-regional staff accounts.

SQL Data Analysis

11/2025 – 12/2025

- Wrote SQL queries to extract, filter and join data
- Performed aggregations to identify patterns and insights
- Generated analytical reports to support business decisions

Uber Ride Analytics Dashboard, *Tools: Power BI, DAX, Data Modeling; GitHub:*

10/2025 – 11/2025

github.com/krishnaravtani18-dotcom/Uber-Ride-Analytics-PowerBI

- Analyzed 5,000+ Uber ride records across time slots, cities, and zones
- Built interactive Power BI dashboards tracking rides, revenue, and distance
- Identified peak demand hours and high-revenue pickup locations
- Analyzed completed vs cancelled rides to assess operational performance
- Created Executive View and Analyst View dashboards for insights

Retail Sales MIS Dashboard, *Tools: Excel (Pivot Tables, Power Query, Charts, Slicers); GitHub: github.com/krishnaravtani18-dotcom/Retail-Sales-Excel-Dashboard*

08/2025 – 09/2025

- Cleaned and structured raw retail sales data using Excel & Power Query
- Built MIS dashboards with KPIs: Total Sales, Units Sold, YoY growth
- Automated monthly sales and category reports, reducing manual effort
- Identified top-performing products and underperforming categories
- Designed reports for management-level decision support

Certificates

- Microsoft – Introduction to MS Excel
- Google Cloud – Introduction to Generative AI Studio
